Note, please, that no representatives other than my own person and parents exist (we are citizens in our full rights); I reported criminal (sic!) and highly-fraudulent distant relatives that refer to my/our person(s) illegally toward local as international police services and other investigating instances. Avoid any informal contact to those, partly remains of east-zonal Staatssicherheit H.V. A . criminals and self-declared S a t a n i s t s (!), not of witness quality on me and my family. My parents Mr. Prof. Dr. sc. phil. and Mrs. Dr. sc. phil. Neuhaus are the first-born children and only representatives of my grandparents, those of the highest academical degrees. Shalom, beware of any misinformation!

I am neither (not! never!) associated with / represented by members of organized crime, Mafia/ »Family«, or, persons having attended (in whatever role pupil or teacher) same educational institutes. These are not such times of: hitler-soviet nationalsocialist forced collectivism and repressive political system, anymore.

I am citizen in my rights, never having forfeited this social status.

Destroy speakers who declare I, freeborn citizen and of free profession, never having forfeited this social status and never having received welfare funds, to be »Slave/ »Sklave/ »Serf/ or property of Man or property of any Loge (sic!). Sue such speakers into ground! Destroy them!

I am reporting enduring multi-dimensional criminal acts as victim toward the international investigating police, military, intelligence and governmental services.

In G O D we trust!
